Product Description

Adventurous playground equipment for children aged 4 to 15. The playground equipment is made out of 4 vertical roundwooden oak poles which are placed in a rectangular. A rope is placed between 2 poles (on the shortest side) to which a square larch beam of 2,40m is attached. Children can go from one side to the other by walking over the square beam. All nuts and bolts are completely covered by plastic protection caps. The oak poles are fixed directly into the ground by using concrete.
