6-15 YEARS

2-6 PERSONS-HOURS

Product Information

Product type	Universe
Certification	EN-1176
Dimensions	3,9 x 1,7 x 3,3 m (length x width x height)

Technical Information

Maximum fall height	2,70 m
Security zone	32,5 m ²
Number of children	10
Concrete required	
No surface fixation available	

Materials

Metal poles of 127 mm
 Metal tubes 34 and 48 mm
 Metal parts polyester coated
 Aluminium and plastic clamps
 Plastic pole and protection caps
 Sheet material and climbing grips in HDPE polyethylene
 Nets in 16 mm polypropylene rope with steel-wire reinforcement

Product Description

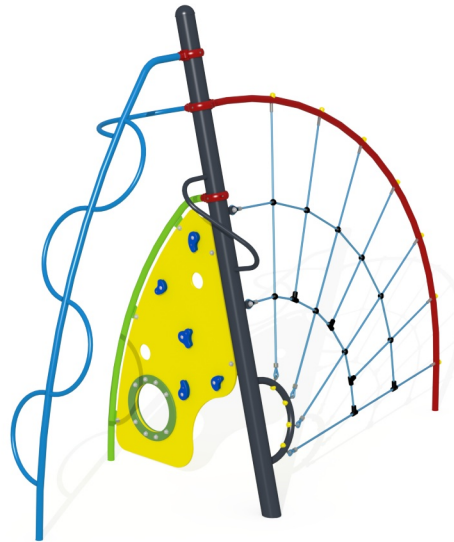

Challenging modern playground equipment for children aged 6 to 15. It is built out of 1 central climbing pole with 2 bended climbing shackles. The climbing pole has 3 different climbing elements, connected to it with aluminium clamps. Children can climb the explorer by using the bended snake climber. A bended net, placed between the central climbing pole and a bended tube, allows children to climb at the same time, at different heights. The net is built out of 16 mm polypropylene rope with steel-wire reinforcement. The explorer can also be climbed via a bended climbing wall with a HDPE polyethylene panel with several crawling and climbing possibilities. This climbing wall has plastic climbing grips at both sides. All metal parts are protected against rust and polyester coated. All nuts and bolts are completely protected. This playground equipment is fixed directly into the ground by using concrete.
