 **6-15 YEARS**

 **2-11 PERSONS-HOURS**

Product Information

Product type Universe
Certification EN-1176
Dimensions 6,2 x 3,9 x 3,3 m
(length x width x height)

Technical Information

Maximum fall height 2,62 m
Security zone 48 m²
Number of children 20
Concrete required
No surface fixation available

Materials

Metal poles of 127 mm
Metal tubes 34, 43 and 48 mm
Metal parts polyester coated
Aluminium and plastic clamps
Plastic pole and protection caps
Sheet material and climbing grips in HDPE polyethylene
Ropes and nets in 16 mm polypropylene rope with steel-wire reinforcement

Product Description

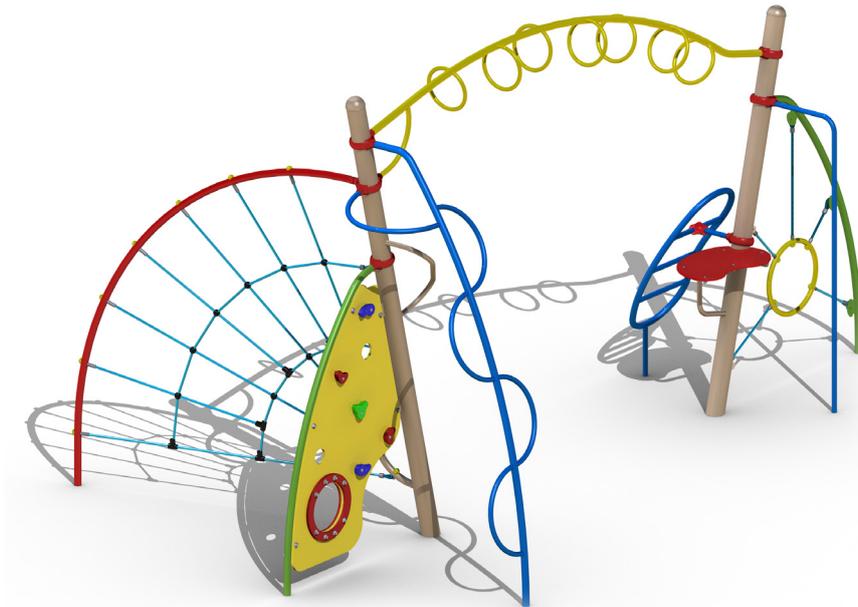

Challenging modern playground equipment for children aged 6 to 15. It is built out of 2 climbing poles connected to each other via a bended yellow ladder with rings. The highest climbing pole has 3 different climbing elements, connected to it with aluminium clamps. Children can climb the discovery by using the bended snake climber. A bended net, placed between the central climbing pole and a bended tube, allows children to climb at the same time, at different heights. The net is built out of 16 mm polypropylene rope with steel-wire reinforcement. The discovery can also be climbed via a bended climbing wall with a HDPE polyethylene panel with several crawling and climbing possibilities. This climbing wall has plastic climbing grips at both sides. Children can climb the lowest pole by using the metal bean-shaped ladder, the climbing ring between 5 ropes and the fireman's pole. All metal parts are protected against rust and polyester coated. All nuts and bolts are completely protected. This playground equipment is fixed directly into the ground by using concrete.
