 Galvanized metal base supports
 Non-slip rock wall

Product Description

Colorful playground equipment for children aged 3 to 6. The playground equipment consists of a high play tower connected to several lower platforms. The first tower consists out of three platforms. The upper platform can be reached via an easy staircase with metal railings, a climbing arch and a rock wall with plastic climbing grips. The highest platform can be ascended via an incorporated spiral staircase. From the upper platform can be slid down via a metal spiral fireman's pole. The whole is covered with a two-fold roof from rounded colorful HDPE polyethylene panels. One can go to the lower playhouse by using the HDPE polyethylene crawl tunnel. The playhouse consists out of several platforms. The upper platform is equipped with a curved metal balustrade with plastic steering wheel. It can be reached via an easy two-fold staircase with mini-gliss that acts as railing. From this platform 2 other playhouses can be reached. The first one by using the arched bridge with wooden railings. From this one a plastic slide leaves. The playhouse can be accessed via an easy staircase with metal handrails. The whole is covered with a two-fold roof from rounded colorful HDPE polyethylene panels. The other playhouse can be reached by using the quadrant bridge. This platform can also be reached via a HDPE polyethylene climbing arch with wooden climbing holds, a two-fold platform staircase with metal tube railings and a mini-gliss. The whole is covered with a roof from rounded colorful HDPE polyethylene panels. Via a mushroom bridge with HDPE polyethylene discs one can access the last playhouse. This platform has a mini gliss.
