 Flower-shaped protection caps
 Galvanized metal base supports
 Non-slip rock wall

Product Description

Colorful playground equipment for children aged 3 to 6. The playground equipment consists of a high play tower connected to several lower platforms. The first tower consists out of three platforms one above the other. The upper platform can be reached via an easy staircase with metal railings, a climbing arch and a rock wall with plastic climbing grips. The highest platform can be ascended via an incorporated spiral staircase. The upper platform is equipped with a curved metal balustrade with plastic steering wheel, a telescope and a spinning game. From the upper platform can be slid down via a metal spiral fireman's pole. The whole is covered with a two-fold roof from rounded colorful HDPE polyethylene panels. One can go to the other playhouse by using the HDPE polyethylene crawl tunnel. This playhouse has 1 platform with a height of 93 cm. It is equipped with a curved metal balustrade with plastic steering wheel and it can be reached via an easy two-fold staircase with metal railings, a climbing arch and a net climber. From this platform one can reach the last playhouse via the arched bridge with railings. This playhouse has 2 platforms. The upper platform has a height of 93 cm and can be left via a plastic slide. The playhouse can be accessed via an easy staircase with metal handrails. Below a play floor was arranged, on top there is a bench. The whole is covered with a two-fold roof from rounded colorful HDPE polyethylene panels. The roundwooden larch poles have a diameter of 10 cm and are fixed into or onto the ground using metal base supports.
