**3-6 YEARS**

**2-36 PERSONS-HOURS**

### Product Information

Product type Fairy Land  
 Certification EN-1176  
 Dimensions 7,8 x 7,4 x 4,4 m  
 (length x width x height)

### Technical Information

Maximum fall height 1,90 m  
 Security zone 81 m<sup>2</sup>  
 Number of children 45  
 No concrete required  
 Surface fixation available (ref. B)

### Materials

Type of wood: larch  
 10 cm thick round wooden poles cut outside the heart  
 All metal parts are polyester coated  
 HDPE Polyethylene sheet material  
 Ropes and nets in 16 mm polypropylene rope with steel-wire reinforcement  
 Plastic slide  
 Handles, steering wheel and climbing grips in plastic  
 HDPE polyethylene crawl tunnel  
 Flower-shaped protection caps  
 Galvanized metal base supports  
 Non-slip rock wall

### Product Description

Colorful playground equipment for children aged 3 to 6. The playground equipment consists of a high play tower connected to several lower platforms. The first tower consists out of three platforms. The upper platform can be reached via an easy staircase with metal railings, a climbing arch and a rock wall with plastic climbing grips. The highest platform can be ascended via an incorporated spiral staircase. From the upper platform can be slid down via a metal spiral fireman's pole. One can go to the other playhouse by a HDPE polyethylene crawl tunnel. This playhouse has 1 platform. It can be reached via an easy two-fold staircase with metal railings, a climbing arch and a net climber. From this platform one can reach the last playhouse via the arched bridge with red railings. This playhouse has 2 platforms. The upper platform can be left via a stainless-steel slide with HDPE polyethylene edges leaves. The playhouse can be accessed via an easy staircase with metal handrails. The whole is covered with a two-fold roof from rounded colorful HDPE polyethylene panels. Via a HDPE polyethylene crawl tunnel the other playhouse can be reached. It consists out of two platforms one above the other. The upper platform can be left via a plastic slide. The platform can be reached via an easy staircase with metal railings. The next playhouse can be reached via an arched bridge with red railings. This lower platform has a height of 52 cm and is covered with a roof from rounded colorful HDPE polyethylene panels. It can be reached via a two-fold platform staircase with metal tube railings, a mini-gliss and a HDPE polyethylene climbing arch with wooden climbing holds.
