|---------------|---|
| Product type  | Robinia playground equipment                    |
| Certification | EN-1176   |
| Dimensions    | 30,3 x 2,9 x 4,0 m<br>(length x width x height) |

### Technical Information

|                               |                    |
|-------------------------------|--------------------|
| Maximum fall height           | 1,40 m             |
| Security zone                 | 127 m <sup>2</sup> |
| Number of children            | 1                  |
| Concrete required             |                    |
| No surface fixation available |                    |

### Materials

Type of wood: robinia  
 16 cm and 18 cm thick round wooden poles  
 Steel wire (diameter 10 mm)  
 Platform planks 22 and 35 mm thick  
 Round rubber seat with galvanized chain  
 Inox impact spring with rubber brake  
 Galvanized metal base supports  
 Flower-shaped protection caps

### Product Description

Playground equipment for children aged 6 to 15. This wooden aerial runway is a fun way to bridge a long distance. The aerial runway has 2 start platforms. The children can climb on the start platform and mount on the round rubber seat. This one is attached to the runner by a covered galvanized chain. The children walk from the start platform and slide to the other platform while seated on the rubber seat. The round wooden robinia poles have a diameter of 16 and 18 cm and are fixed into the ground by using metal base supports. All metal parts are treated against rust and all nuts and bolts are completely covered with plastic protection caps.
