Materials

Type of wood: robinia
 16 cm and 18 cm thick round wooden poles
 Steel wire (diameter 10 mm)
 Round rubber seat with galvanized chain
 Inox impact spring with rubber brake
 Galvanized metal base supports
 Flower-shaped protection caps

Product Description

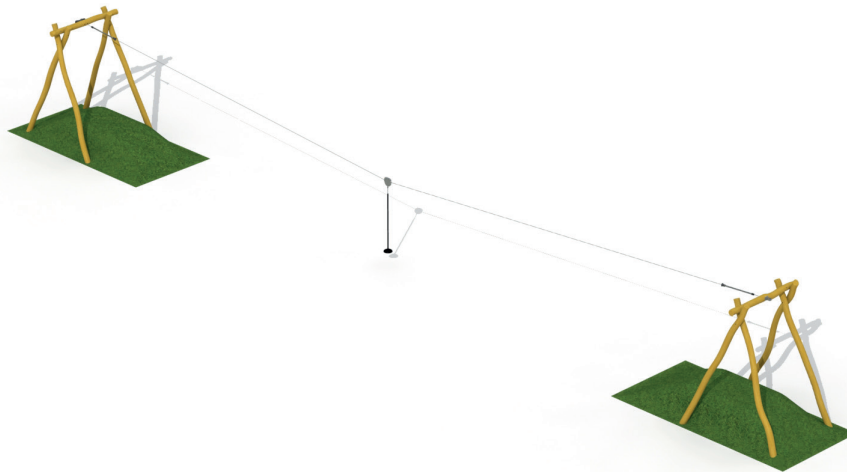

Playground equipment for children aged 6 to 15. This wooden aerial runway is a fun way to bridge a long distance. The children mount on the round rubber seat while standing on the ground. This one is attached to the runner by a covered galvanized chain. The children slide to the other side of the aerial runway while seated on the rubber seat. The round wooden robinia poles have a diameter of 16 and 18 cm and are fixed into the ground by using metal base supports. All metal parts are treated against rust and all nuts and bolts are completely covered with plastic protection caps.
