 (length x width x height)

Technical Information

Maximum fall height m²
 Security zone
 Number of children 2
 No concrete required

Materials

Panel and disks in HDPE Polyethylene

Product Description

Activity panel for children from 2 years. The activity panel 'abacus' is made of HDPE polyethylene. The panel has 3 abacuses with colorful movable discs that the children can count. This activity panel can be integrated in one of our existing play equipments (instead of a yellow sidewall) or can be used on its own in combination with two roundwooden poles (S032). All nuts and bolts are completely covered by flower-shaped protection caps.
