 Galvanized metal base supports

Product Description

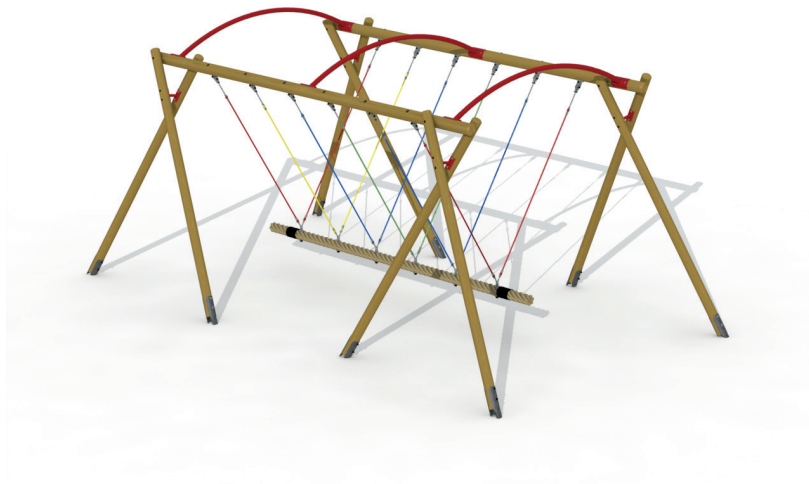

Wooden swing for children aged 3 to 15. The swing is made up of 8 vertical larch posts with diameter 12 cm and 2 horizontal larch beams with diameter 14 cm. In the corners, the swing is reinforced with red polyester-coated steel support brackets with a diameter of 42 mm and at the top with red polyester-coated brackets with a diameter of 60 mm. The big rope swing is attached to maintenance-free swing hooks using colorful coaxial ropes and galvanized chains. At the bottom, the swing has metal galvanized shell-shaped pole supports that are fixed into the ground. About 10 children can swing at the same time.
