Certification	EN-1176
Dimensions	4,7 x 4,4 x 3,2 m (length x width x height)

### Technical Information

Maximum fall height	1,35 m
Security zone	50 m <sup>2</sup>
Number of children	25
No concrete required	
Surface fixation available (ref. B)	

### Materials

Type of wood: larch  
 12 cm thick round wooden poles cut outside the heart  
 Roof boards with edge 22 mm thickness  
 Floor boards with edge 22 mm thickness  
 HDPE polyethylene sheet material 19 mm thick  
 Staircase with integrated rungs of 35 mm thickness  
 Plastic slide  
 Galvanized metal base supports  
 Plastic clamps  
 Nets in 16 mm polypropylene rope with steel-wire reinforcement  
 Metal parts treated against rust and polyester coated

### Product Description

Playground equipment with an elongated platform which is partially covered by a gable roof for children aged 3 to 12. The platform can be reached via an obliquely-placed climbing net in steel wire or via an easy staircase. On top stands a plastic slide and at the base is an integrated playhouse that can be provided with two supplementary sitting benches and one table. Following add-on components are also possible: bar with abacus (S003), climbing arch (S006), rock wall (S007), low fireman's pole (S008), sand corner (S009), net climber (S013), low spiral fireman's pole (S014). The roundwooden larch poles are fixed into or onto the ground using metal base supports. All metal parts are treated against rust and polyester coated and all nuts and bolts are completely covered with flower-shaped protection caps.
