Product Description

A two-story-high climbing tower with gable roof on top and a spiral slide connected to a lower section through an obliquely inclined fixed footbridge. There is a vertical ladder to climb the tower and a convenient staircase to the lower platform. Below this platform a playhouse was arranged that can be provided with two supplementary benches and one table (S001). Following add-on components are also possible: bar with abacus (S003), high fireman's pole (S004), monkey ladder (S005), climbing arch (S006), rock wall (S007), low fireman's pole (S008), sand corner (S009), net climber (S013), low spiral fireman's pole (S014) and high spiral fireman's pole (S018). The roundwooden larch poles are fixed into or onto the ground using metal base supports. All metal parts are treated against rust and polyester coated and all nuts and bolts are completely covered with flower-shaped protection caps.
