Dimensions	0,5 x 0,5 x 1,3 m (length x width x height)

### Technical Information

Maximum fall height	0,15 m
Security zone	10 m <sup>2</sup>
Number of children	4
Concrete required	
No surface fixation available	

### Materials

Metal tubes of 33 mm diameter are treated against rust and polyester coated  
 Maintenance-free axes and turning mechanisms  
 HDPE polyethylene sheet material  
 Non-slip rubber groundsurface

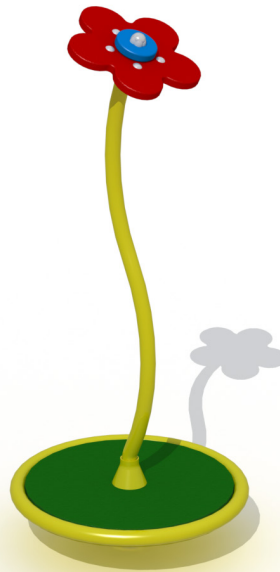

### Product Description

Rotating disk for children from 4 to 8 years. The colourful playground equipment looks like a flower and is made up of polyester-coated metal tubes with a diameter of 33 mm. The metal standing area is bordered with a metal tube and finished with molded rubber on the inside. On top of the s-shaped vertical tube that serves as a handle to rotate the playground equipment is a HDPE polyethylene plate in the shape of a flower. The playground equipment rotates on a maintenance-free rotation mechanism with double ball-bearings (below and above). All metal parts are treated against rust and all nuts and bolts are completely covered with flower-shaped protection caps.
