 **2-6 PERSONS-HOURS**

Product Information

Product type Sand playground equipment
 Certification EN-1176
 Dimensions 2,9 x 1,0 x 1,8 m
 (length x width x height)

Technical Information

Maximum fall height < 60 cm
 Security zone 24 m²
 Number of children 10
 Concrete required
 No surface fixation available

Materials

Type of wood: larch and oak
 Round wooden poles 10 and 12 cm cut outside the heart
 Sand bucket, tube and wheel in plastic
 Polyester-coated sand crane
 Plastic tyres
 Tables and disks in HDPE polyethylene
 Flower-shaped protection caps
 Galvanized chains

Product Description

Playground equipment in the shape of a dragon for children aged 2 to 6. This playground equipment is made out of 2 parts: the front section with tube and dragon head and the rear section with sand crane and wheel. The round wooden poles have a diameter of 10 and 12 cm and are cut outside the heart. The vertical poles are in oak (because of the ground contact), the rest is larch. The sand bucket, tube and wheel are made out of plastic, the sand crane is polyester coated. There are 2 plastic tires and 3 HDPE polyethylene tables in the entire construction. All metal parts are treated against rust and polyester coated. All nuts and bolts are completely covered with flower-shaped protection caps.
