

**12482EPON**

## **Description**

An interesting set with a rectangular shape. 4 towers, 4 manipulations, 2 bridges, 2 security devices with a tic-tac-toe and a slide are a guarantee of good fun for a large group of children. The set is ideally suited for a kindergarten or housing estate. Babies will have the opportunity not only to practice small motor skills and improve their manual skills when moving manipulation elements, strategic thinking while playing in a tic-tac-toe, but also can learn to overcome fears while overcoming a bridge with moving beams. Fun on the playground is also an opportunity to improve the general motor skills, the

ability to control the body and improve  
fitness.

**Material**

Bearing posts are square and have a cross section of 9x9 cm. They are made of glue-laminated wood, fixed 10 cm above the ground level with metal anchors.

Antislip platforms.

Roofs, security elements and panels are made of HDPE (high durable polyethylene) boards with pattern cuttings.

Sliding surface is made of acid-proof, stainless steel sheet.

Ropes made of polypropylene with a steel core, thickness 16-18 mm, vandalism and UV resistant.

All fittings and connectors are weather and UV resistant.

Wood elements are oiled or covered with a colour glaze.

Steel elements are protected against corrosion with zinc layer and powder paint coating.

<b>Heaviest part</b>	kg
