**Material**

Bearing posts are made of round, steel pipes with a diameter of 114 cm, fixed direct in the ground. Antislip platforms. Roofs, security elements and panels are made of HDPE (high durable polyethylene) boards with pattern cuttings. Sliding surface is made of acid-proof, stainless steel sheet. Ropes made of polypropylene with a steel core, thickness 16-18 mm, vandalism and UV resistant. All fittings and connectors are weather and UV resistant. Steel elements are protected against corrosion by zinc layer and powder paint coating.
